

## AMERICANS FAVOR TREATY

As Means to Keeping Dardanelles Strait Open

ALLIES PUT UP  
ULTIMATUM

That Turkey Must Accept  
or Reject Their Plan  
To-day

Lausanne, Dec. 20. (By the Associated Press).—On the eve of what threatened to be a critical day in the life of the Lausanne conference Ambassador Child last night had a long conversation with Ismet Pasha about the straits problem which Lord Curzon yesterday declared must be disposed of immediately.

It has become known that the American observers at the conference believe that an international control commission associated with the league of nations, as suggested in the allied plan for supervision of the Dardanelles is unnecessary. In other words, the Americans believe that freedom of the straits should be an actual freedom guaranteed by a treaty between Turkey and the other world powers, and that it should not be a freedom limited by an international commission. The American observers have so far on the conference floor limited themselves to statements of the most general terms on the Dardanelles question without suggesting as to how the straits should be kept open to the commerce of the world and to the fleets of the powers. Neither have there been intimations of America's attitude toward an international board of control.

Allied leaders last night served notice that the Turks to-day must either accept or reject the allied project for settlement of the straits question. Failure of the Dardanelles negotiations, it is believed, will hardly affect the other problems which the conference was called to solve.
